## "THE WINGED HORSEMAN," TO SHOW AT CARBON THEATRE

Ruth Elder, Atlantic flight heroine, will thrill the public again with her exploits in the air as the leading lady for Hoot Gibson in "The Winged Horseman," Universal picture coming to the Carbon Theatre on Friday and Saturday of this week.

The pretty aviatrix pilots a plane and climaxes a six-shooter battle in the clouds by a parachute jump along with Hoot and the villain. As a screen player Miss Elder retains the charm and beauty which helped make her such a popular idol upon her return from the epochal flight which ended at the Azores.

Gibson is as superb in the cockpit of an airplane as he ever was on a horse. He does not abandon his horse altogether as he uses it and a motorcycle during a part of the story.

A band of air vandals who periodically drop bombs upon a cattle ranch in order to ruin the owner are at the bottom of the story. Miss Elder is the daughter of a ranch owner and keeps a plane of her own parked in the ranch stable. Hoot is a Texas ranger who comes to solve the mystery of the air attacks.

"The Winged Horseman" is not the first of the star's air pictures, "The Flyin' Cowboy" having appeared recently. It is said, though, to be the best of them all and the high mark of his career so far. The stunt flying at low altitude with the plane piloted by Miss Elder is said to be the most thrilling that has been photographed for the screen.

## MOVING 3000 REINDEER

The herd of 3000 reindeer purchased by the Canadian Government from an American corporation in Alaska in 1929 will, by the end of the month, resume its journey eastward towards Kittazuit, in the delta of the Mackenzie River, Northwest Territories, Canada, according to information received recently. The reindeer began the 1000 mile journey from Napaktoolek in Western Alaska to Kittazuit in December last year and halted at Hunt River Alaska for the summer season. It is expected that the herd will reach their intended destination early in the spring of 1931. This herd has been purchased by the Canadian Government Northwest Territories and Yukon Branch to be the nucleus of an additional food and clothing supply for the Eskimos living in the extreme northern area of Canada. Preparations for the reception of the reindeer have been going forward rapidly. The timber and lumber for the buildings, corrals and the other equipment have been moved to the site selected in the 15,000 square-mile range east of the Mackenzie delta and everything will be in readiness when the reindeer arrive.

## FINAL CROP REPORT OF THE BANK OF MONTREAL

### SORENSEN—MATCHETT

The marriage was solemnized in the Knox Church, Calgary, on October 15, of Margaret, only daughter of the late William Matchett and Mrs. Hanston, Portadown, Ireland, and Victor, eldest son of Mr. and Mrs. S. Sorensen, of Copenhagen, Denmark. The bride was gowned in white crepe-de-chene with a veil trimmed with orange blossoms. She carried a bouquet of Columbia roses.

Her only attendant, Miss Agnes Jensen, of Calgary, chose powder blue georgette with a matching hat. Mr. John Hansen of Rockyford supported the bridegroom.

Mr. and Mrs. Sorensen left by train after the ceremony for Coronation, Alberta, where they will make their home.—Calgary Herald.

### TOWN PLANNING IN ALBERTA

(By Horace L. Seymour)

Being a series of short articles explanatory of the provisions of The Alberta Town Planning Act and Regulations thereunder.

#### ARTICLE 9

#### Provincial Parks

In the Town Planning Act 1929, provision was made for the purchase of land for provincial park purposes. In March 1930, The Provincial Parks and Protected Areas Act was passed, under the provisions of which a Provincial Parks Board has been appointed.

This board will have charge of the control and management of Provincial Parks. Provision is also made for the appointment, by the Province, of a Board of Management for any particular park or area.

Under the provisions of the Parks and Protected Areas Act there may also be constituted "protected" areas for the purpose of protecting and preserving therein objects of natural beauty, fossil remains or other objects, animate or inanimate, of geological, ethnological, historical or other scientific interest. In such protected areas there may be forbidden or regulated the excavation of fossil remains, and penalties may be prescribed including those for interference with "historic objects."

#### General

The Dominion Bureau of Statistics estimates the 1930 wheat yield in the prairie provinces at 362,000,000 bushels while the North Western Grain Dealers Association place it at 389,000,000 bushels. These estimates compare with the Dominion Bureau's final figures of 281,664,000 bushels in 1929, the past five years average of 405,700,000 bushels, and the ten years average of 360,600,000 bushels. The Dominion Bureau estimates this year's oat crop at 267,000,000 bushels or 126,000,000 bushels more than last year, and the barley crop at 312,000,000 bushels or 32,000,000 bushels more than last year. There were about 340,000 acres less land sown to wheat than last year and 740,000 acres more to coarse grains.

#### Prairie Provinces

Wheat seeding this year was completed under favourable conditions about seven to ten days ahead of the average. Germination was satisfactory but moisture reserves in the subsoil were low. Crops made rapid progress until the latter part of May or early June, when drought and high winds caused soil drifting and necessitated reseeded in many areas of Saskatchewan and Alberta. Fairly general rains in the latter part of June and early July benefited practically the entire west, with the exception of sections in Southern Saskatchewan and Alberta. Intense heat and driving wind brought grains to maturity rapidly and caused deterioration except in northern Saskatchewan and northern Alberta. Rust caused considerable injury, especially to late crops in western Manitoba and eastern Saskatchewan. Cutting commenced early and harvesting was general in the middle of August and progressed for a time under ideal conditions. Delays occurred on account of wet weather and snow, but threshing is practically completed in exception of the large areas in northern Saskatchewan and northern Alberta, where the great bulk of the crop, estimated at from 65,000,000 to 70,000,000 bushels of wheat alone is still in stock covered with snow. The wheat delivered so far is grading exceptionally high but it is expected that grades of unthreshed grain will be considerably lower on account of rain and some sprouting. About 14,000 acres were sown to sugar beets compared with 9,300 acres last year, and with 52 per cent harvested the yield is estimated at 110,000 tons, compared with 62,000 tons in 1929.

## SHIRT SLEEVES -vs- SILK RIBBON

It used to be the practice, in opening new stretches of highway, for some municipal or provincial official to sever a silk cord at the same time declaring the new road open for traffic. This procedure is likely to be discontinued if the example set recently in western Canada is widely copied. On that occasion one of Manitoba's main highways and one of Canada's trunk roads were joined and opened for traffic with a gesture which was at least intensely practical even if less formal. The Minister of Highways for Saskatchewan and the Minister of Public Works for Manitoba, in their shirt sleeves, shovelled the last of the gravel up to the boundary on each side, thus technically completing the junction and another important link in interprovincial transportation history.

## MASONIC DISTRICT NO. 16 MEETING

The Annual District meeting of the Masonic District No. 16, Alberta, was held at Carbon Masonic Hall on Tuesday, October 21st. All lodges in the District were represented, some 160 delegates being present. The meeting was presided over by the District Deputy Grand Master, R.W. Bro. Pust of Rockyford Lodge, and the Grand Master, M.W. Bro. Snedden, the Deputy Grand Master, Dr. Kerby, and the Grand Secretary, M.W. Bro. Kemmis, of the Grand Lodge of Alberta were present as well as a number of past D.D.G.M.'s and other members of the Grand Lodge. At 6 p.m. the meeting adjourned to the Farmers' Exchange Hall where a splendid banquet was served by the Ladies' Aid of the United Church, Carbon.

The meeting was resumed at the Masonic Hall at 8 p.m. and we understand that Rockyford was selected as the place of meeting for 1931, and W. Br. W. Fulton of Drumheller Lodge No. 146 was elected District Deputy Grand Master.

Hon. Lt.-Col. J. H. Woods, of Calgary, retiring president of the Canadian Chamber of Commerce, in the course of an address delivered at Toronto, made the following statement:

"I do not hesitate to speak to you about the pool system of marketing. I have no brief for the pool, nor any excuse or explanation to offer for any errors that it may or may not have made. Concerning these, I am not sufficiently expert to be a judge, but it

## EXPECT CROWD AT TENNIS CLUB DANCE

The posters are out for the big tennis dance to be held in the Farmers' Exchange hall on November 6th. This is to be the biggest dance of the season, according to officials of the tennis club, and great preparation is being made in decorating the hall for the occasion. A Calgary five-piece orchestra has been engaged and everyone is assured of a good time if they attend this dance on Thursday evening next. At this time the teachers of the Trochu Teachers' Association will be on convention in Carbon and this will materially help to swell the crowd on this night, part of their entertainment program being this dance. Supper is to be served at the dance and everyone going there with the intention of having a real good time will not be disappointed.

is my firm conviction that the wheat pool is the greatest stabilizer of the morale of the farmers of the west that exists today.

"To it in great measure these farmers have pinned their confidence and their pride as masters of their own commercial destiny, and in my belief, the destruction of that confidence, the lowering of that pride, the psychological results that would inevitably follow upon an abandonment or even a partial abandonment of that system that they themselves have created, would be an injury almost beyond calculation.

"My information from home is that the membership of the wheat pool has never been more loyal to it than today, in these conditions of strain. Bootlegging of wheat there always has been, is and will be, but none today more than in the days of high prices and easy markets. Mistakes have doubtless been made. Whoever heard of so vast an enterprise being erected and conducted without mistakes?

"Pardon these references to what might be considered a controversial subject, but my appeal is psychological rather than material. We are too apt to criticize one another to the extent of condemnation for errors that are no greater than we commit ourselves. And therefore I urge that we extend in greater measure charity of thought and tolerance of judgement to one another in all branches of our commercial and financial lives, and look forward to the future that lies before us rather than turn our faces to the troubles that lie behind."

## PROGRAMME OF THE FOURTH

# Annual Convention

of The Trochu Teachers' Association

To be held in the PUBLIC SCHOOL, CARBON

Thursday and Friday, November 6 & 7, 1930

#### THURSDAY

##### Morning Session 9:30

9:30—Enrolment and Getting Acquainted.

"O Canada!"

Address of Welcome

Mayor of Carbon

Chairman of the School Board

Teaching and Training Young Children.

—Miss Kate Ramsay

Grade IX Literature.

—Inspector W. J. McLean

Grammar and Composition Grades VII & VIII.

Mr. J. M. McDonald

Address—Representative of Red Cross.

12:00 to 2:00 p.m. Banquet and Addresses.

2:00 p.m.—Elementary Science, Grade IX.

—Mr. Evan Kelly

Problems of the Beginner.

—Mr. Rae Ure

Organized Play and Athletics.

—Mr. Brooks

Address: Mr. L. B. Hart.

Address: Representative of Dept. of Education.

Supervision of Seat Work.

—Mrs. Herring

#### Evening Session

Concert—Dance in Farmers' Exchange Hall

#### FRIDAY

##### Morning Session 9:30

Teaching of Writing—Mrs. Midgeley.

Discipline in the Rural School.

Teachers Difficulties and How to Overcome Them.

—Mr. Gibson

11:30 Address: Representative of Teachers' Alliance.

—Discussion led by Miss Cameron

##### Afternoon Session 1:30

Getting Pupils to Work.

Co-operation.

Literature Grade VII & VIII.

—Mr. H. F. Irwin

Question Drawer

Election of Officers

All interested in Education are cordially invited to attend.

#### SATURDAY

Athletic Events and Football Matches.

City Banker (visiting farm) I suppose that's the hired man?  
Farmer (who had visited banks) No, that's the first vice-president in charge of cows.

#### ACETOPHEN COMPOUND TABLETS

A Home Necessity—For Headaches, Colds and relief of pain

Tablets No. 217—12 for 35c; 40 for 75c; 100 for \$1.50.

Tablets No. 222—12 for 60c; 40 for \$1.00

## What Does Your Work Mean To You?

In the current issue of a well known magazine there is an article, bearing the title "Do You Ever Get Off On the Wrong Foot?" which discusses the problems of people who at some stage in their career come to the conclusion that they are square pegs in round holes. In a word, that they do not fit; that they have made a mistake in the choice of their business occupation or professional calling, and, as a result, are not making the progress they feel they should make and their abilities entitle them to make.

On the other hand, a daily newspaper is at present running a series of short sketches of men who in their boyhood or early manhood had ambitions along certain lines, but circumstances, environment, fate, call it what you will, decided otherwise, and instead of being what in those other days they "wanted to be," they have achieved success in radically different walks of life.

In this present period of world-wide depression, a temporary period when we are for the first time feeling and suffering the real aftermath of the Great War, doubtless many people are asking themselves the question: Have I got off on the wrong foot? Am I a square peg in a round hole? Should I make a change, abandon the business, trade or profession in which I am or have been engaged and try something new and different?

Possibly at this time farmers particularly may be inclined to indulge in such questioning as they contemplate the many vicissitudes which agriculture has undergone during the past two years as a result of climatic conditions, marketing difficulties, and a selling price for their products below the actual cost of production. The present outlook may not look promising to them, any more than it does to the city wage-earner. The question, however, which both classes must consider is whether, after all, any change would be better.

For example, if the man engaged in agriculture really likes farming and a rural life, and that degree of independence resulting from the fact that he is his own boss, preferring these to the limitations of a salaried position in town or city, the paid servant of others, and breathing the air of congested centres of population, then he has not made a mistake; he is not a misfit. Nor is the city man in the wrong place if on his part the open-air life and activities of the farm and the less strenuous life of rural communities makes no appeal to him.

Possibly in both city and country, and with men in all occupations and callings in life, some part at least of their dissatisfaction with their own condition is to be found in their failure to fully grasp all the opportunities of their present vocation.

In the magazine article to which reference has already been made, the story is told of a man in middle life who, dissatisfied with his position and the progress he was making, came to the parting of the ways. An orphan, forced to make his way at the age of thirteen, he took a humble position in a food commission warehouse. In course of time he became a salesman, acquired a family and a house worth four thousand dollars, and at forty-two was working long hours every day for forty dollars a week. An opportunity presented itself to become produce manager in a newly organized business at fifty dollars a week, but he was required to invest two thousand in the business. He mortgaged his house to raise the money, and took on the new job. But the promoter of the business was inexperienced, and in ten months it failed, with the result that this man lost his money and ruined his health by worry. He then took stock of "himself." He realized he knew a little about a whole lot of vegetables, but did not know everything there was to know about any one of them. So, on the advice of a friend, this man went back to his old job and worked two years more during which time he made close and expert study of one particular vegetable for which there was an all-year-round demand. He learned where the best varieties were grown, and by whom; refrigerating methods; packing methods; costs; who bought that particular variety of vegetable; ways to use it; everything. Then he launched into business in a rented dark basement dealing exclusively in that one particular vegetable. Today he heads a huge and profitable business and is worth hundreds of thousands of dollars.

The point is just this: Is the dissatisfied agriculturist farming in any old way in haphazard fashion, sowing any kind of seed, good and clean or not; using any kind of scrub cattle, indifferent breeds of poultry, or other farm stock? Is the dissatisfied city artisan, or clerk, or business man, just drifting along, doing what comes to his hand, without giving much heed to the method of doing it? Is the carpenter, for instance, content to be merely a "saw and hammer" man instead of studying and striving to become efficient and an expert in his work? Is the merchant plodding along lines of least resistance but making no mental effort to study the requirements of his particular field and the needs, even the fads, of his customers?

In a word, are we treating our present occupations in life merely and solely as a means of physical existence in life, or are we finding some real pleasure and satisfaction in the work itself? If the former is our approach to our work we will, of course, be dissatisfied with it and with ourselves, and ultimate failure must result. If, on the other hand, the work itself means something to us, and we take a keen interest in it, study it and its possibilities, constantly strive for its improvement, then satisfaction will result, leading to contentment and a reasonable measure of success.

## Progressive Estevan

### Three New Industrial Plants Operated At Recent Ceremony

The town of Estevan on September 24th opened three new industrial plants at a ceremony attended by some 300 leading business and professional men of Western Canada; and "The Mercury," in a special issue, notes the recent progress of this town of 3,000 persons, the extent of whose agricultural and mineral wealth is only beginning to be realized. Among other things, it boasts of having the only plant in Canada making stone-grey building brick and of having the largest nurseries in the Dominion.

Persian Balm is inevitably chosen by discerning women. Delightful to use. Subtly fragrant. Cooling and refreshing. Imparts a rare youthful charm to the complexion. Invaluable for softening and making hands flawlessly white. Tones and stimulates the skin. Useful for the family also. Protects the tender skin of the child and is excellent for the father as a hair fixative and cooling shaving lotion.

### U.S.A. Manufacturers For Manitoba

A special publicity campaign, aiming at the establishment of American manufacturing plants in the Province of Manitoba, is to be launched by the Industrial Development Board of the province.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying a reliable remedy—Mother Graves' Worm Extirminator.

### The Aeroplane and Geodesy

#### Problem Of Survey Work In Remote Districts Has Been Solved

The aeroplane has solved one of the problems of the Geodetic Survey of Canada. In those districts which are traversed by neither roads nor railways, travel is slow and at times almost impossible. Obstruction is met everywhere in measuring the points in the great triangulation net which is gradually covering the whole of the Dominion. By means of the aeroplane most of these difficulties have been set aside.

## People Need Products

### Russia Is Selling

#### Soviets Take That Method To Raise Money For Treasury

Soviet dumping of wheat and other products abroad at a time when the supplies are urgently needed in Russia itself is in the nature of "tax" collection under the Russian system, says the Financial Post, which continues:

"In Soviet Russia, the word taxation has no such meaning as Western minds attach to it. Holding private ownership to be unethical, the government itself is officially the owner of all property. Consequently, there is none for it to tax. Proclaiming private profits to be opposed to human welfare, it officially permits the accumulation of no incomes which might be taxed. It is obliged, therefore, to obtain its revenue from the actual products of the mines, forests, and farms which it operates or to take as taxes the produce of those who still operate privately—mainly the unsocialized peasants. But since it cannot operate a treasury directly with wheat and lumber, it must sell these articles in the outside world.

"This is what it is doing to the extent even of leaving its own people on the verge of starvation. Officially they are permitted to eat only what is distributed to them by the government, and the heavy purchases of machinery abroad mean that the people at home must be kept to the very lowest limit of supplies."

### Banish pain with Minard's Liniment.

# Administration Of Lands And Other Resources Of The West Passes Under Provincial Control

The present year terminates the administration by the Dominion Government of the lands and other resources of the three Prairie Provinces, and of the areas in British Columbia known as the Peace River Block and the Railway Belt. These resources now pass under provincial control.

One of the notable changes involv-

these were never completed the magnitude of this land business may be judged from the fact that the entries represent, at 160 acres each, nearly 100,000,000 acres of land. As the accompanying diagram shows, homestead activity reached its peak in the three or four years immediately preceding the War. While the last two years have brought a decided spurt in the number of entries,

ed is that the historic Dominion home stead policy now gives way to such land policies as may be framed by the several provinces concerned. For nearly sixty years the homestead system has played a cardinal role in the disposal of what have been known as "Dominion Lands," and in the advance of Canadian development. Since 1900 nearly 600,000 homestead entries have been made, and while many of

the post-War period, generally speaking, has witnessed only a moderate degree of homesteading activity. The rise and fall of homestead entries illustrates perhaps better than anything else the fact that in more recent times the granting of homesteads has not been the all-absorbing task for the Department of the Interior that it was fifteen or twenty years ago.

## A New Yorker On Canada

Points Out Several Points Of Superiority Over U.S.

Charles Johnston, who is one of the most scholarly of New York reviewers, contributes an article to the New York Times Book Review on the Cambridge history volumes on Canada and Newfoundland. He gathers from "this admirable historical study," that the Canadian view of American affairs "has a certain definite atmosphere, which may, perhaps, be described as modest superiority. Not that there is any boasting. The points of superiority simply emerge in passing. For example, we set some store by the year 1492, underlining its significance by an annual holiday. The Canadian date is 1472, when John Sculp the Dane, reached Canadian territory in the region of Labrador. We commemorate the founding of Jamestown in 1607, and of the Pilgrim State in 1620. But the year 1534 marks "the birth of Canada." Again we celebrate July 4, but here also, Canada outstrips us, for July 3 is the birthday of Quebec, in the year 1608. Finally the fact slips out that the area of Canada is greater not only than that of the United States including its dependency Alaska—incidentally it may be added also greater than Brazil, the third largest country in the Western Hemisphere.

## A Labor-Saving Device

Life is getting easier and easier. The latest invention to take some of the work off a man's hands is a cigarette which doesn't need the use of a match or cigarette lighter. It is tipped with a special preparation which, when rubbed gently along the side of the package lights at once.

The oyster may be dumb in some ways, but it has sense enough to get a four months' vacation.

**Absent-Minded Professor Of Tomorrow**  
"There now, Adolar, you have forgotten your parachute again." — Hummel, Hamburg.

W. N. U. 1861

## Disturbing Nature's Balance

Disastrous Results Often Follow The Introduction Of Insects Or Animals From Foreign Climes

A scientist of the Academy of Natural Sciences of Philadelphia brings from the West Indies an account of another of the many recorded instances of the unfortunate results of man's interference with the "balance of nature." Monkeys, the offspring of animals supposed to have been liberated by sailors or slave traders many years ago, and the mongoose, brought from India to cope with an excess of rats and snakes, are both said to have preyed to such an extent upon the birds and their nests that certain species of the birds have been virtually exterminated or driven to other localities.

One of the best known instances of the disastrous results of the artificial upset of the balance of nature is found in the rabbit pest in Australia and New Zealand. These animals, introduced originally for food or for sport, have increased to such an extent that great sums have been spent in a vain effort to eradicate them. Such occurrences justify the skepticism that is always voiced when insects or animals are brought from distant climes to cope with pests. There is always the peril of creating a new and more serious pest.—New York Evening Post.

## New Machinery Needed

Development Of Flax And Hemp Making Machinery Offers Opportunity

In handling crops such as flax and hemp when so much labour is involved, the need of new machinery that will lower the cost of production can not be overemphasized. observes the Fibre Specialist of the Dominion Department of Agriculture, in his annual report. Special attention is now being given to the processing of flax and hemp at the present time, and it is expected that some way of speeding up production in scutching and retting will soon be found. The development of flax and hemp working machinery provides one of the greatest opportunities to Canadian enterprise at the present time.

## Conscience Wakes Up

It is not only evaders of income tax who sometimes become conscience stricken and make restitution after the lapse of a long period of time. At a recent meeting of the Vancouver public library board, the librarian reported that 34 books which had been stolen from the library in 1926, had recently been returned.

Gasoline is being sold in Bogota, Colombia, at 47 cents a gallon.

## Reassurance For Wheat Growers Of Canada

No Cause For Pessimism Says Well Informed Bank Official

There is reassurance for Canadian wheat growers and, therefore, for the whole of Canada in the review of world market conditions given to the Toronto Mail and Empire by Mr. B. P. Alley, assistant general manager of the Canadian Bank of Commerce. As Mr. Alley has charge of the bank's business throughout western Canada, and as he must, therefore, be specially well-informed regarding the wheat export trade, his remarks upon the existing situation may be accepted as authoritative. Without presuming to speak dogmatically, he points out several influential factors in the marketing developments of recent months. One of these factors is that the high prices which prevailed for wheat not so long ago induced an over-production of that commodity throughout the world. It brought into the field countries where the cost of production is high, and which cannot profitably produce wheat for sale at normal quotations.

Another thing is that in spite of prices so high that they discourage consumers, Canada last year sold more than the year's entire crop. Marketing prospects have improved in the importing countries of Europe and also in Japan and China. Nor is Russia likely soon to be as important a competitor in Liverpool or anywhere else, as some people have seemed to fear. This year's Canadian crop is considerably larger than last year's and it is of a particularly high quality. This means that, other things being equal and prices being as low as they are, Canadian wheat should take the lead on all buying markets from this time forward. All things considered, therefore, there seems to be every reason for hoping that a few months hence Canada may be back on the world's main street, exporting more wheat and wheat flour than any other nation on earth.—Toronto Mail and Empire.

## Horse Standard Improving

Better Class Of Hunters and Jumpers Being Bred

Both in number and in quality the situation in Canada as regards hunting or jumping horses is improving. It was stated by Lieut.-Col. Frank Moss, Toronto, secretary of the Canadian Hunter, Saddle and Light Horse Improvement Society, who spoke on the work of his organization to delegates of the Canadian Cavalry Association in annual convention at Ottawa.

Colonel Moss said the society, with the aid of government grants, was generally making progress in its aim to interest the farming communities in the breeding of hunters. Practically 50 per cent. of all hunters bred on farms were suited for cavalry work, he said.

"How long has Meeker been married?"  
"For twenty awed years."

# Canada Is Anxious For Penny Post Re-Establishment Throughout The Empire

## Winter Holiday Trips

Canadian Pacific Offers Special Inducements To the Winter Traveller

Sharp stimulus to winter travel in Western Canada this year is forecast by Canadian Pacific Railway officials in Winnipeg, chief among the contributing factors being the many special trains arranged to connect with special sailings to the Old Country for Christmas and New Year's. While this rail movement will be eagerly, there are also many interesting winter features in the west that annually bring thousands of easterners, Canadians and Americans, to the winter playground of the northwest.

The Banff Carnival is now known all over the civilized world, and another western winter sporting event that has become firmly fixed on the calendar is the mid-winter golf tournament, sponsored by the Canadian Pacific Hotels, At Victoria, capital City of British Columbia.

This tournament, started in 1928, enters its third year next February, when, from February 23 to 28, a host of golfers will gather in the Pacific Northwest in quest of the Beatty challenge trophy. The tournament is being held this season at the Oak Bay course of the Victoria Golf Club, where all-winter golf is one of the feature attractions of Vancouver Island's evergreen playground.

As a special inducement to winter travellers, low round trip fares have been named by the Company to Eastern Canada and Central States, commencing December 1st, and to the Pacific Coast during December, January and part of February. These tickets are considerably lower in price than the ordinary fare and bear a much longer limit.

## Number Of Farms Reduced

United States Census Bureau Records Decrease Of 2.3 Per Cent. Since 1920

A reduction in five years of 73,763, or 1.2 per cent. in the number of farms in the United States was reported by the census bureau on the basis of complete returns from the 48 states and the District of Columbia.

The farms, which, under the census bureau definition, means a tract of land used for agricultural purposes composed of more than three acres or producing crops valued at \$250 or more, totalled 6,297,877 as compared with 6,371,640 in 1925, when the last census of farms was taken.

This was a decrease of 2.3 per cent. in the number of farms since 1920, when the total was 6,448,343.

Portugal and Austria have just been connected by telephone.

## Rust Control

Fifth Of Series Of Studies In Plant Diseases

One of the most useful publications which has been published by the Federal Department of Agriculture recently is the fifth in the series of studies in plant diseases being carried out under the direction of the Dominion Botanist. This study deals with "Control methods for diseases of cereal, forage and fibre crops." It contains the latest findings of the Dominion Research Laboratories of plant pathology at Winnipeg, Saskatoon and Edmonton. The subjects dealt with include not only general rules useful in the control and eradication of cereal diseases, but specific recommendations for the treatment of a wide variety of specific cereal diseases. The crops dealt with include wheat, oats, barley, rye, corn, millet, flax, sunflowers, alfalfa, sweet clover and common clover. This circular, No. 123 New Series, is available without charge on application to the Publications Branch of the Department at Ottawa.

## Agricultural Saskatchewan

30,000,000 Acres Of Land Under Cultivation In The Province

Recent reports show that the Province of Saskatchewan has grown from 60,000 farms in operation with 2,000,000 acres in crop when the province was organized in 1905 to 118,000 farms with 30,000,000 acres under cultivation at the present time. Also, the province is now organized along agricultural lines; the wheat pool having 80,000 members while various other farmers' organizations are operating to the benefit of the producers.

"They say she throws her money into the gutter."  
"I suppose you don't know which gutter?"—Pages Gales, Yverdon.

## ARCHITECTURAL SCULPTOR

John Donnelly, New York, and his wife, as they arrived in Montreal on board the "Lady Rodney," from the West Indies. Mr. Donnelly is an architectural sculptor with a prominent New York firm, and will shortly arrive in Toronto, Ont., to apply his art on the exterior of the New Bank of Commerce building.—Photograph by C.N.R.

## Jap Chauffeurs Have Assistants

A. G. Williams, a New York visitor from Osaka, Japan, says that in the big Jap cities taxis have chauffeurs and assistant chauffeurs one to drive and one to watch the road, the populace swarming over the highways with no thought of danger.

## UTTERLY WORN OUT

### Women Weakened By Worry

"I don't want to worry, but I can't help it," said a woman recently when told to take things easy and not worry. It is the duty of every woman to save her strength. If she feels herself getting depressed; if she feels utterly worn out; worries over trifles and frequently has nervous headaches, she will be wise to realize her nervous system needs attention.

Starved nerves mean a breakdown. To feed the nerves you must build up the blood. To do this there is nothing to equal Dr. Williams' Pink Pills. These Pills not only enrich the blood but actually create new blood which feeds and strengthens the nerves and banishes the cause of nervous disorders.

Women cannot always rest when they should, but every woman can maintain her strength by the help of Dr. Williams' Pink Pills. Start taking these Pills now and see how soon improvement will show by increased energy, keen appetite, strong, steady nerves and robust health. These Pills are sold by medicine dealers or by mail, postpaid, at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Grows White Tomatoes

A returned soldier farmer at Chilliwack, B.C., after many years of experiment, has produced a white tomato, which is non-acidic and has been cultivated especially for its medicinal purposes.

## Before Her Baby Came

"I have used several bottles of Lydia E. Pinkham's Vegetable Compound and find it helps me wonderfully, especially before childbirth. I have five lovely children. After my last baby came I had a miserable pain in my right side so I bought another bottle of the Compound and I feel fine now. I work outside during the fruit season in addition to my housework."—Mrs. Charles Slingerland, R.R. #4, St. Catharines, Ontario.

Lydia E. Pinkham's Vegetable Compound

Made by Pinkham Medicine Co., Lowell, Mass. U.S.A. and Chesham, Ontario, Canada

## Relief Activities

### Hon. Howard McConnell Reviews Relief Work In Saskatchewan Drought Areas

Details of relief activities in the dried-out areas of Saskatchewan undertaken by the Provincial Government and by the municipalities affected, with governmental aid, are given in a statement issued for publication by Hon. Howard McConnell, Provincial Treasurer and Minister of Municipal Affairs in the Saskatchewan Government. Text of the statement follows:

"In connection with relief given to farmers in the dried-out areas of our province last year, the Provincial Government distributed \$919,000. This was made up as follows:

- 1.—Freight paid by province on fodder shipped to such areas .....\$450,000
- 2.—Relief roads built by province in such areas .....\$350,000
- 3.—Relief provided by Government for flour, fuel and fodder together with seed grain in Local Improvement Districts in such areas .....\$119,000

Total .....\$919,000

"The rural municipalities in such areas contributed \$1,954,000 for the relief of farmers in such areas, particulars of which are as follows:

- 1.—Sums advanced by municipalities to farmers within their borders for relief purposes to purchase flour, fuel and fodder .....\$1,750,000
- 2.—Sums advanced by municipalities to farmers resident within their borders for seed grain .....\$ 204,000

Total .....\$1,954,000

"Urban municipalities received from the Government for unemployment relief, \$50,000. The Provincial Government guaranteed the repayment to the banks of all loans made by the banks to such municipalities to enable them to dispense such relief.

"This year again, the major portion of the municipalities suffering drought last year, are again experiencing adverse conditions. The position of a great many of the people residing in such areas is serious. To assist the farmers in these areas this coming fall and winter, the Government is spending approximately \$1,500,000 in relief road camps, between forty and fifty such camps having been already established. Further, to assist many municipalities, the Government is advancing this year, next year's municipal road grants. In some municipalities where the situation requires more than ordinary attention, but where road camps were not established, the Government is contributing to such municipalities an extra grant. The Government appreciates that such road camps do not completely solve the situation in these municipalities, but they do permit the residents in these areas to receive \$1,500,000 on account of such road work. These camps will be continued until freeze-up. On account of adverse conditions, the Government is not asking for any contributions from such municipalities toward such road work.

"Further, to assist the farmers of these dried-out areas, the Government is again, this year, paying one-half of the freight on all hay and fodder shipped into these areas by the railways, the railways paying the other half of the freight. The portion of such freight chargeable to the Government this year, will approximate \$500,000.

"Requests have been made on behalf of a great many of the municipalities in the dried-out areas that the Government, with the assistance of the railways, supply coal free of all freight charges, to the residents of such dried-out areas. The Government approached the railways with a request that the railways absorb one-half of all the freight charges on Saskatchewan-mined coal shipped to the dried-out areas for relief purposes, agreeing to pay the other half of such freight. The railways, however, were unable to agree to this proposal. The Government has decided, therefore to assume one-half of all freight charges on coal mined in Saskatchewan and shipped to the rural municipalities in the dried-out areas, on their order, for relief purposes in such rural municipalities, this policy to take effect immediately.

"The expenditure incurred and to be incurred by the Government this year in granting relief to the residents of the dried-out areas, will approximate \$2,500,000. The Government is receiving from the Federal Treasury the sum of \$500,000 for relief purposes in the dried-out areas. This \$500,000, it will be seen, will only take care of a small portion of the money which the Government has spent this fall and is spending for such relief in such areas.

"The Federal Government is further assisting Saskatchewan in the matter of unemployment by a further contribution of \$1,000,000 to be used in assisting to pay for certain public works to take care of unemployment in the municipalities of this province. For every dollar that the Federal Government puts up, the Provincial Government must contribute one dollar and the municipality receiving such assistance must pay two dollars. In other words, if the contribution of \$1,000,000 from the Federal Government is spent, then the total amount that the Provincial Government must contribute will be \$1,000,000, while the municipalities must contribute \$2,000,000, thus making a total of \$4,000,000.

"This year, as last year, the Government again proposes to continue to guarantee the banks against loss for loans made by them to the municipalities in districts where, on account of crop failures or other adverse conditions, such assistance is necessary. Further details in connection with the administration of relief will be worked out in due course.

"The Government wants to emphasize that all public works proposed by municipal authorities, must be planned to provide the maximum amount of employment with the minimum expenditure of materials on such works. Any project which does not keep this in mind, cannot be entertained by the Government. It wishes to emphasize again, that the relief to be distributed is to be distributed only to those municipalities whose resources are insufficient to enable them to provide for their own unemployment. This is a fundamental principle laid down by the Federal Government and will not be departed from."

For Dry Skin—Minard's Liniment.

## ISSUES STATEMENT

Conquers Asthma. To be relieved from the terrible suffocating due to asthma is a great thing, but to be safe-guarded for the future is even greater. Not only does Dr. J. D. Kellogg's Asthma Remedy bring prompt relief, but it introduces a new era of life for the afflicted. Systematic inhaling of smoke or fumes from the remedy prevents re-attacks and often effects a permanent cure.

Manitoba Buys Western Coal  
Manitoba bought 135,000 tons of Alberta and Saskatchewan coal from June 15th to September 25th, according to F. G. Neate, secretary of the Dominion Fuel Board.

## DO YOU SUFFER WITH HEADACHE?

So easy to get quick relief and prevent an attack in the future. Avoid bromides and dope. They relieve quickly but affect the heart and are very dangerous. They are depressing and only give temporary relief, the cause of the headache still remains within. The same and harmless way. First correct the cause, sweeten the sour and acid stomach, relieve the intestines of the decayed and poisonous food matter, gently stimulate the liver, start the bile flowing and the bowels pass off the waste matter which causes your headache. Try Carter's Little Liver Pills. Druggists 25c red pkgs.

## SUNDAY SCHOOL LESSON

NOVEMBER 2

Golden Text: "Now when they beheld the boldness of Peter and John, and had perceived that they were unlearned and ignorant men, they marvelled; and they took knowledge of them, that they had been with Jesus."—Act 4:13.

Lesson: Mark 8:27-29; Luke 22:31-34; John 18:25-27; 21:15-17.

Devotional Reading: Philipians 2:1-11.

### Explanations and Comments

Peter's Great Avowal, Mark 8:27-29.—"Who do men say that I am?" Jesus suddenly asked His disciples when on their way to Caesarea Philippi. "John the Baptist," they answered—so Herod the tetrarch had said, Matthew 14:2; "and others, Elijah (Matthew 7:10; Mal. 4:5, 6); but others, One of the prophets." "But who say ye that I am?" Jesus next questioned. "A photographer makes his sensitive plate, exposes it to just the rays of light that he chooses, dips it into the proper solutions, and holds it up to the light to see if his picture is there. What else did this Great Teacher do on that day but hold up these souls to the light to find out if the reflection of the Son of God were fastened there?"—J. M. Stifter. And Peter answered for all the disciples, "Thou art the Christ."

Peter's Over-Confidence, Luke 22:31-34.—"Simon, Simon," Jesus solemnly said, "behold Satan asked to have you, that he might sift you as wheat." And then Jesus assured Peter that He had prayed for him that his faith might not fail. "And thou, when once thou hast turned again (recovered from thy failure), establish (encourage) thy brethren."

"Then Jesus sadly foretold Peter's yielding to the temptation awaiting him; before the crowing of the cock, before the dawn of day, Peter would three times deny that he knew his Lord.

Peter's Sin, John 18:25-27.—After the arrest of Jesus, Peter followed Him to the palace of the high priest and was standing in the inner quadrangle before a brazier of coals warming himself, when he was asked if he were not one of Jesus' disciples, and he denied that he was. One of the servants of the high priest, a kinsman of the one whose ear Peter had cut off at the arrest in the Garden of Gethsemane (Matthew 26:51), said to him: "Did I not see thee in the Garden with Him?" Again Peter denied, and immediately he heard the cock crow. "In that moment Simon Peter was etched into an everlasting picture."—F. W. Norwood.

## A MILLION FAT FOLKS CAN'T BE WRONG

And that's a low estimate of the number taking Kruschen to keep down superfluous fat.

When you take vitalizing Kruschen Salts for a few days that old indolent arm-chair feeling deserts you—it doesn't matter how fat you are—the urge for activity has got you—and you're "stepping lively."

And best of all you like this activity—you walk a couple of miles and enjoy it—you thought you'd never dance again, but you find you're getting as spry as ever—the old tingling, active feeling reaches even your feet.

Kruschen is a combination of the six salts Nature has already put into your body to keep you alive—if it were not for these vital salts you could not live.

One bottle is enough to prove to you that Kruschen will make you feel younger—spryer—more energetic—you'll enjoy life—every minute of it.

A half teaspoonful in a glass of hot water every morning is all you need to keep healthy—keep your stomach, liver, bowels and kidneys in splendid condition—free your system from harmful toxins and acids.

### Canadian Fox Export

The export of Canadian live foxes to Germany continues to increase in number. During 1929 a total of 892 valued at \$259,552 were shipped from the Dominion as compared with 375, valued at \$105,360 in the previous year.

Minard's Liniment refreshes the scalp.

The amount of natural and artificial gas produced in the world in a year would fill a dirigible a mile in diameter and 20 miles long, powerful enough to lift the Egyptian pyramids.

Many children die from the assaults of worms, and the first care of mothers should be to see that their infants are free from these pests. A vermifuge that can be depended on is Miller's Worm Powders. They will not only expel worms from the system, but act as a health-giving medicine and a remedy for many of the ailments that beset infants, enfeebling them and endangering their lives.

Cuba plans to establish its first national park, for protection of native plants and trees.

Use Minard's Liniment for Toothache.

## A nightmare of a night

Cough after cough

Immediate relief is had

Mathieu's Syrup of Tar & Extract of Cod Liver

MATHIEU'S COUGH DROPS

Pleasant and Effective - 5c Package

### A Scientific Lung

Through the invention of Dr. Philip Drinker, of the Harvard School of Public Health, persons who now suffer from lung trouble have a "scientific lung" available. This machine is said to be able to keep alive for weeks persons whose breathing apparatuses get out of order or cease functioning altogether.

## Nervous Headaches

due to over work, are quickly dispelled by Minard's. First heat the Liniment—then inhale it for a few minutes. It has a speedy curative effect.

### Licensed Taxidermists

Under the Migratory Birds Act, no person is allowed to engage in the business of taxidermist without first having secured a license to do so from the Minister of the Interior. The taxidermist must not handle any bird that has been illegally killed, and every year he must make such returns as the Minister may require.

## When BABIES are Upset

BABY ills and ailments seem twice as serious at night. A sudden cry may mean colic. Or a sudden attack of diarrhea. How would you meet this emergency—tonight? Have you a bottle of Castoria ready?

For the protection of your wee one—for your own peace of mind—keep this old, reliable preparation always on hand. But don't keep it just for emergencies; let it be an everyday aid. Its gentle influence will ease and soothe the infant who cannot sleep. Its mild regulation will help an older child whose tongue is coated because of sluggish bowels. All druggists have Castoria.

## CANADA TO BE REPRESENTED AT CHICAGO SHOW

Chicago, Ills.—Canada is again expected to make an impressive showing in the International Grain and Hay Show, to be held at Chicago, November 29 to December 6, in connection with the International Live Stock Exposition. Already entries are being received, some from the most distant parts of the earth. Three samples of wheat have arrived from New South Wales, according to the management.

Distinction for having made the first entry in the rye and wheat classes of the exposition this year goes to a Saskatchewan grower, James A. Paur of Langham. In the rye classes of the 1929 exposition, Paur's sample ranked high.

Other successful Canadian exhibitors at the last exposition, who are expected to take part this year, were George Avery of Kelso, Sask., who had reserve championship on a two-rowed barley sample at the 1929 show; W. G. Gibson of Ladner, B.C., and William Darnbrough of Laura, Sask., who had champion and reserve champion respectively on field peas; Joseph H. B. Smith of Wolf Creek, Alberta, and S. Lacombe of Birtle, Manitoba, who ranked first and second with samples of Red Spring Wheat; Eddie J. Shank of Athabasca, Alberta, who won a blue on an early oats sample, and many other provincial exhibitors whose samples placed creditably high in the competition.

A well known Canadian, Dr. G. I. Christie, president of the Ontario Agricultural College, Guelph, Ont., and a director of the International Live Stock Exposition, is in charge of the International Grain and Hay Show. Through him Canada will be invited to send a judge of the small grain classes. The Grain and Hay Show will also have the active support of the various Canadian seed growers' associations as well as the provincial departments of agriculture.

Added incentive for Canadian farmers to participate in the 1930 International Grain and Hay Show will be generous cash prizes offered to Canadian winners by the Canadian Co-operative Wheat Producers, Limited; the Canadian National Railways; the Canadian Pacific Railway, and the governments of Quebec, Ontario, Saskatchewan, Alberta and British Columbia. To the Albertan winning a grand championship in either wheats or oats, the Calgary Board of Trade offers a round trip railway ticket and sleeping car fare to the 1931 International Grain and Hay Show.

B. H. Heide, secretary of the International Live Stock Exposition at Chicago, says: "Growers should not be discouraged from taking part this year because of possible decreased quality of their samples owing to unfavorable growing conditions last summer, which since the situation was general to the North America continent, will, I believe be generally reflected in most all of the samples submitted."

### Forming Farm Boards

#### Prairie Provinces Stand Ready To Help Farmers Financially

Winnipeg, Man.—All three prairie provinces stand ready to assist western farmers in their financial predicament brought on by low prices of grain and livestock. Saskatchewan has had a debt-adjustment bureau in force for some time and Manitoba now has set up a parallel board to aid needy farmers and to effect fair distribution of credit and collections. The newest entry into the list is Alberta's agricultural development board, whose formation has been announced.

#### Galli-Curci In Auto Accident

Birmingham, Eng.—Mme. Amelita Galli-Curci was badly bruised and suffered a severe shaking up near here when the automobile bearing among others the famous soprano and her husband, Homer Samuels, overturned. The party were travelling to Kings Norton where the chauffeur, swerving to avoid a collision with another car, lost control.

W. N. U. 1861

## Embargo On War Munitions

### President Hoover Will Not Permit Shipment Of Arms To Brazilian Rebels

Washington, D.C.—President Hoover has issued a proclamation placing an embargo on the shipment of munitions of war to Brazil except for the Federal Government at Rio De Janeiro. In taking this step, the president acted upon the request of S. Gurgel Do Amaral, Brazilian ambassador, and lined up the United States Government definitely against the rebel forces in the southern republic.

Until this proclamation was issued the Brazilian revolutionists were free to procure arms and munitions in the United States from private manufacturers. So far as the state department is advised, however, no shipments have actually been made to the rebels.

While secretary Stimson described the Brazilian ambassador as optimistic, the fact that his government requested an embargo on the shipment of arms to the rebels was generally construed as indicating that the authorities at Rio De Janeiro recognize that the uprising constitutes a grave threat to the Federal Government.

### Postpone Return Flight

#### Capt. Errol Boyd Will Not Attempt Trip This Year

London, England.—Captain J. Errol Boyd and Lieutenant Harry P. Connor, who were planning to make a return flight across the Atlantic early next month, have definitely postponed the attempt until next spring.

The two men who flew to England from Harbor Grace, Nfld., 10 days ago, had been planning to use their monoplane "Columbia" for the first round-trip north Atlantic attempt.

When the airmen eventually make the return flight they will do so as owners of the "Columbia," for Sherwin Cottingham, aviation enthusiast in Montreal, has bought the veteran plane from Charles A. Levine and presented it to Boyd and Connor on condition that they do not fly the Atlantic again this year.

Boyd and Connor plan to sail for Canada, October 21, returning to England in the spring.

### Asking Six-Hour Day

#### Railroad Men Want Shorter Hours With Same Rate Of Pay

Cleveland, Ohio.—The seven railroad labor unions of Canada and the United States have taken the leadership of organized labor in the movement seeking a six-hour working day without reduction of pay.

Officials of the railroad unions estimated that the proposed six-hour day would put to work 50,000 men now unemployed in the railroad industries.

The campaign for the shorter working day will be planned in detail at a meeting of 700 representatives of the railroad unions in Chicago, Nov. 12.

### Sir Arthur Currie To Visit British India

#### Chosen As Canada's Representative At Inauguration Ceremonies Of Nee Delhi

Ottawa, Ont.—The Dominion Government has requested General Sir Arthur Currie, commander-in-chief of the Canadian forces during the war, to represent Canada at the ceremonies in connection with the inauguration of Nee Delhi as the capital of British India and the opening of the new government buildings there. General Currie has accepted the invitation and will undertake the mission.

#### Time Is Extended

Edmonton, Alberta.—Hon. Dr. William Egbert will be lieutenant-governor of Alberta until April 1, 1931. His Honor has received notice from Ottawa that his five-year term, which expired in October, had been extended. He was asked to continue in office owing to Premier Bennett's absence in England, and has consented to do so.

#### Bank Honored Old Notes

Scarboro, Ont.—At a local banking institution a new Canadian entered to make a deposit. The customer handed to the teller a roll of bills each of defunct and merged banks, including those of the Ontario, Sterling, Farmers, Home and Merchants Bank. The notes will be honored.

## TRANS-ATLANTIC FLYER

Capt. J. Errol Boyd, Toronto flier, who, with Harry Connor, United States airman, successfully flew the Atlantic in aeroplane "Columbia," but who was forced down in Cornwall from engine trouble, just a few miles of their ultimate goal—Croydon.

## Automobile Production Down

### Fewer Cars Produced In September Than Any Month In The Year

Ottawa, Ont.—Canada produced fewer automobiles in September than in any month this year, it was shown in a report published recently by the Dominion Bureau of Statistics. The total was 7,957 cars, being 19 per cent. lower than for August, and 42 per cent. lower than for September, 1929.

Likewise production figures for the first nine months of the year showed substantial reductions over 1929 totals. To the end of September, Canadian plants produced 138,622 cars, compared with 233,853 cars for the same period last year. This reduction amounts to 41 per cent.

## Customary Two Minutes Silence

### People Requested To Mark Armistice Day As Usual

Ottawa, Ont.—Canada will observe the customary two-minutes of silence on the morning of Armistice Day, Tuesday, November 11. The following statement in respect to it, has been issued from the office of the Prime Minister: "In accordance with arrangements for the observance of Armistice Day, sanctioned by His Majesty the King, the people of Canada are invited to mark the occasion by a two-minutes' silence at 11 a.m. on Tuesday, November 11, 1930."

## AT IMPERIAL CONFERENCE

Photograph reproduced above shows Prime Minister Ramsay MacDonald (right), of Great Britain, and Prime Minister R. B. Bennett of Canada, as they appeared chatting outside the foreign office in London, just before the big empire conference was due to open.

## Lake Winnipeg Tragedy

### Two Fishermen Drown When They Leaped From Burning Tug Boat

Winnipeg, Man.—From the blazing deck of the tug "Magnus," four fishermen leaped into the chill waters of Lake Winnipeg, near Gimli. Two were drowned, and the other pair were dragged, half-dead, from the icy water by another tug which rushed to the rescue. The "Magnus" sank after a gasoline explosion shattered the craft from stem to stern.

The dead: Captain William Bjarnson. Engineer Joe Bell.

The rescue tug "Goldfield," summoned by frenzied blasts from the ill-fated "Magnus," siren, saved Martin Johnson and Ole Kardell, surviving members of the crew. Bodies of Captain Bjarnson and Engineer Bell have not been recovered. The tiny gasoline-propelled launch-tug had caught fire below deck soon after it left Gimli on October 22, but the blaze was not discovered for some time, until it was too late to halt progress of the flames.

The "Magnus," owned by the Armstrong Gimli Fisheries Company, was northbound for the fishing waters at the far end of Lake Winnipeg. The tug, laden with fishing supplies for the winter, will be a total loss.

## Will Open Textile Mill

### English Firms Would Bring Own Workmen To Canada

Ottawa, Ont.—Admission to Canada of a limited number of skilled textile workers is being sought by an English firm which has purchased a textile plant at Carlton Place. The mill, which has been closed for some time, will be reopened shortly and will employ 360 hands.

The company wishes to bring from its home plant about 25 people. They will work on the manufacture of woollen coatings and other cloth of a kind never before made in this country.

#### Nurses Save Child's Life

Belleville, Ills. — Nurses at St. Elizabeth Hospital sitting in two-hour relays with a finger pressed tightly against an incision in the external jugular vein of Josephine Jarvis, 9, of Lebranon, Ills., probably have saved the little girl's life. Flying glass from the windshield of the Jarvis car, driven by her mother, severed the vein and a branch of the facial artery, when the Jarvis car and another collided.

#### Photograph Total Eclipse Of Sun

Niuafoou Island.—Weeks of patient waiting and this little island in the South Pacific was rewarded Oct. 21, when 41 photographs of a total eclipse of the sun were taken successfully.

## DISCUSS QUESTION OF VITAL MOMENT TO PROVINCES

London, England.—Before the Imperial Conference committee, under Lord Sankey, Lord High Chancellor, Canada is making a stand for provincial rights. Hon. Maurice Dupre, Canadian Solicitor-General, supporting the views held by Premiers Ferguson and Taschereau, on Ontario and Quebec, respectively, holds the provinces must first be consulted before any amendments can be made to the British North America Act. The question arose in the consideration by the committee of the recommendations of the 1929 conference on operations of dominions laws.

In effect, the Canadian delegate's stand pursued to its logical conclusion would lead to an interprovincial conference or some other mode of consultation before final action on the report of the 1929 conference.

The 1929 conference, composed of legal experts from the various dominions, was a belated aftermath of the status resolutions of the 1926 Imperial Conference. The 1929 gathering studied the conflicts in Dominion legislation and British legislation and finally recommended an Imperial act be passed nullifying the effect of the Colonial Laws Validity Act.

Critics of these recommendations claim they go further than mere repeal of the Colonial Validity Act; that in effect they authorize an amendment to the Canadian constitution. Premiers Ferguson and Taschereau both took the ground that as Canadian confederation was a pact between the provinces, the constitution cannot be amended without the consent of the provinces. Hon. Maurice Dupre is understood to be supporting this view in the committee deliberations.

How the provinces are to be consulted has not yet been determined. There is a belief that the principle and precedent involved in the matter are of greater importance than the actual issues at stake.

## British Airship Workers Worried

### Disaster To R-101 May Mean Reduction In Staff

Cardington, England.—Eight hundred workers of the Royal Airship works here and their families are undergoing an anxious time pending decision of the future of airship development following the disaster to the R-101.

Officials of the works met secretly and the fact they also kept their conclusions, if any, to themselves, served to increase the apprehension.

It is rumored there is a proposal to cut labor down by 20 per cent. immediately and, in the circumstances, the workers are profoundly anxious to see an early commencement of the official air ministry enquiry into the R-101 disaster, delay in which is beginning to result in newspaper criticism.

## Shamrock Reaches Home

### Battled With Bad Weather and Stormy Seas All the Way Across

Southampton, Eng.—Battered by terrific seas encountered on her way across the Atlantic, the "Shamrock V." arrived minus her original steering wheel which was washed away when she was 24 hours out of Bristol, Rhode Island.

Captain William Greenock, who brought the America's Cup challenger home, said that the yacht ran into bad weather practically all the way over. At times the boat was held to a standstill.

"It was no pleasure cruise," he said. "I don't think the weather could have been more unkind for we struck a bad patch just after leaving America."

The Shamrock will be taken to a shipyard for the winter. All aboard were reported well.

#### Opposed To British Policy

Jerusalem, Palestine.—The National Council of Palestine Jews after a meeting which lasted eight hours, decided unanimously to reject the British statement of policy in Palestine and not to participate in the proposed legislative council.

Editor and Publisher

**BEER OR BOOTLEG**

The Moderation League of Alberta  
is at work and shortly a petition is to  
be circulated throughout the districts  
for the abolition of beer parlors in Al-  
berta. The Moderation League is at-  
tempting to defeat this petition on the

grounds that in so many words means  
"beer or bootleg" and in an advertise-  
ment in this issue of The Chronicle,  
they have placed squarely before the  
people their reason for keeping the  
Alberta Liquor Act along the same  
lines as it is now operated. There is  
much to be considered in their views  
and it would be well for our readers  
to read this advertisement and any  
other information on the subject, so  
that they may be conversant with the  
facts and understand the situation.

**HALLOWE'EN NIGHT IN CARBON**

Tomorrow night is Hallowe'en night  
and no doubt, as usual, the boys and  
girls of the town will be around for  
their 'Hallowe'en handout,' and a few  
pranks will be played in town. In the  
past the children of Carbon have not  
been destructive and it is to be hoped  
that they will not be so this Hallowe'-  
en. Parents should remind their off-  
spring that they (the parents) are re-  
sponsible for all damage done, and it  
is their duty to keep them out of mis-  
chief as much as possible. Our local  
detachment of the Alberta Provincial  
Police is always on the job and no  
property damage will be tolerated if  
the culprits are caught. Make Hallo-  
we'en night one of pleasure and en-  
tertainment, not one of destruction.

What the Carbon children lack on  
this occasion is entertainment and if  
some organization or group of persons  
would undertake to provide the school  
children with a concert they would be

doing something for the further ad-  
vancement of the entertainment and  
education of our younger generation  
in this community.

**ADVERTISING**

Advertising has the power of sug-  
gestion which creates a desire to pos-  
sess.

Continuous advertising is the most  
effective kind.

Continuous advertising causes read-  
ers to form a friendly feeling towards  
the concerns advertising and makes  
customers and prospective customers

realize that only the best in quality  
is continuously advertised.

Persistence in advertising is un-  
questionably the greatest force in the  
building of business. It increases the  
turnover and breaks down sales re-  
sistance.

Truthful advertising of quality will  
mean satisfied customers. It is build-  
ing better business everywhere for  
those who use its aid.

Advertising is the magnet that at-  
tracts the attention of all. It reminds  
the people of everything they need.

Business concerns who handle well  
advertised lines and back them up  
with local advertising are the ones

who profit most.

Only the concerns who are continu-  
ous advertisers can successfully sur-  
vive competition.

Business men who do not believe in  
advertising are just sleeping, while lo-  
cal competitors, neighboring cities,  
door to door peddlers and mail order  
houses are getting the business they  
should get.

Remember! When the next print-  
ing salesman walks into your office  
and asks you for a printing order, tell  
him that there is a printer in town and  
that he CAN do that particular job.

# Under Control OR No Control?

**UNDER CONTROL:**

with beer being sold by reputable licensed,  
hotels under government supervision.

**NO CONTROL:**

with bootleggers running rampant as in  
the old prohibition days.

**Reasons why you should NOT sign  
the prohibition petition urging the  
government to abolish the sale of beer  
by the glass or bottle, thus doing  
away with the beer rooms, clubs and  
canteens.**

1. The proposal to disturb the act comes from a small body of people whose social theories have not withstood the test of actual experience.
2. The Trades and Labor Congress are on record as being in favor of the sale of beer-by-the-glass.
3. By virtue of the local option provisions of the act, communities may extinguish a license when a majority of public opinion so expresses itself.
4. No license has been withdrawn as a result of a local option vote either in 1929 or 1930, though licenses attacked were at points where conditions appeared to the prohibitionists, as favorable to a dry result.
5. In a total of 58 option votes taken since the act came into force only four licenses have been cancelled as a result of votes; and these licenses were, in every case adversely affected by peculiar local influence.
6. Absence of criticism at the last two provincial elections.
7. Hotel accommodation, particularly at country points, has improved as a direct result of the act, to a standard unequalled in any other province.
8. The general endorsement of the act by the travelling public and the willingness of the public generally to assist in enforcing the act by giving information regarding infractions and interdicting those needing protection from their own weakness.
9. Bootlegging and moonshining have been eliminated as remunerative pursuits. This, together with strict government control, has placed all intoxicating liquor beyond the reach of minors; fewer cases of intoxication in the police courts, in spite of considerable increase in population. Leave the police of the province free to perform their natural functions, that of protecting the people, not taking up their time trying to enforce what has proved to be unenforceable legislation. Remember you cannot legislate men's minds, because they will never obey a law they do not respect. This was proven in prohibition days.
10. The operation of the act provides a large public revenue (4½ cents for every 10c expended) this has helped to increase the general revenue of the province and prevent increased taxation. Formerly such revenue went to the bootleggers and moonshiners.
11. Official reports commend the act as eminently practical. They contain no important criticism of the act's clauses. Police reports indicate a continuous improvement in the general state of law and order.
12. The real motive prompting the petition is to render the act unworkable by eliminating the retail sale of beer-by-the-glass or bottle; the ultimate aim being a return to total prohibition.

**If the beer rooms and clubs are abo-  
lished what does the Prohibition Party  
suggest to take their place? Is it to be  
liquor for the wealthy and prohibi-  
tion for the worker?**

**The Moderation League of Alberta.**

### CHAPTER III.—Continued.

"Thank goodness then, that you didn't discover me before!"

"Is it so awful—kissing me?" asked Nick.

"It would be awful kissing you good-bye," answered his wife demurely.

"For that," he said, putting his arm about her, "you shall have another!"

"Gay," he continued with mock severity, "we're downright silly. I wouldn't have believed we could behave so. And I suppose you're right. We've sponged on Mr. Bartlett long enough. Say, let's ask the old man up to supper. It would tickle him to death."

So Simeon Bartlett was their first guest. He arrived panting, after the hard pull up the foot path that led from the wood road.

"I take this kindly, ma'am," he said, sinking down breathless on the porch, and mopping the dampness from his brow with a huge handkerchief. Although evening was approaching he carried his umbrella. Indeed, he seemed almost afraid to give it up when Gay offered to relieve him of it.

"Never travel without it, ma'am," he repeated. "Shouldn't hardly feel at home if it wa'n't along. Well, well, this looks real cosy, don't it? Built this place for my old woman, ma'am, before I got so confounded fleshy. Time was when I could come up that path without batten' an eyelash, same as Nick here. A good boy, Nick. You didn't make no mistake when you picked him out."

"She didn't do the picking," laughed Nick. "I picked her, and then didn't give her time to think about it."

"Well, well," chuckled the old man, "just you take care that she don't regret it. By gorry! this ain't by any chance your honeymoon, be it?"

Gay blushed; but Nick only laughed at their guest's embarrassing interrogation.

"We hadn't been married ten minutes when you met us, Mr. Bartlett."

In an instant the old man was serious.

"You ain't runnin' away from your folks, be you?" he asked soberly. "If so, it's my advice for you to go straight home and make it up. I—"

"You needn't worry a minute about that," Nick interrupted, and Mr. Bartlett brightened perceptibly.

"Tain't a good thing to quarrel with yer folks," he continued, sinking back comfortably in his chair. "I wouldn't advise it ever, though they's times when families act awful pernickity. But it's no way to begin life—runnin' off an' gettin' married secret like. Tain't a good thing to remember. You got to think o' that, boy. Everything you do now—every darn mean thoughtless little act'll come back to you when your work's done, and you got time to set down and think it over. Once when I wa'n't more than six year old I cheated at an egg race. 'Twas at a Sunday School picnic. I didn't hardly know I was cheatin' till afterward; but I took the prize (it was a whistle, ma'am, hung on a red silk cord), and I ain't never been able to forget it. Well, I'm glad you ain't quarreled with yer folks."

"We have none to quarrel with," said Nick.

"Not—neither of you?"

Nick shook his head. He boldly put an arm about his wife and drew her closer.

"So you see," he said to Mr. Bartlett, though his eyes sought Gay's, "we seem to belong together."

"That's right," responded the old man. "That's the way to feel; and don't you ever let nothin' come between you. Don't lie. If the time comes when you make a fool o' yourself, Nick, you just own up, and if yer wife loves you she'll forgive an awful lot. The good book says that the peace o' God passeth all

understandin', but I don't believe it's a mite more wonderful than the love o' woman. What a woman'll put up with—Well, I'll say this, son: you're a good boy, but you prob'ly ain't one third good enough for her."

"I fear I'm not," agreed Nick readily; but Gay laughed, and asked if her husband was to get all the good advice.

Simeon Bartlett chuckled.

"I don't aim to advise a lady," he said gallantly, "but if I was urged I'd say don't tie him too close to yer apron strings, ma'am. Give him plenty o' rope to run on; and don't mind when he notices a pretty face. It's agin natur for a young feller like Nick not to see 'em, and it's a darn sight safer if he ain't afraid to mention 'em to his wife. Just so you're sure he loves you, you ain't got a thing to worry about. Jealousy, ma'am, has made more unhappiness than strong drink; though I ain't on speakin' acquaintance with either, you might say, always bein' sure o' my old woman, and signin' the pledge at twelve year old. Do I smell chowder, ma'am?"

"That sounds," laughed Gay, "like a gentle hint for supper. Shall we have it here on the porch?"

"That would suit me fine, ma'am. Me and my old woman used to eat here summer evenin's. Sometimes the hermit thrushes would sing for us. We called 'em our orchestra; and a darn sight prettier music it was than what comes out o' the brass band over to Meller's Falls."

"We'll agree on that," said Nick. "They sang the night we came here. I told Gay it was a bridal chorus, sung specially for us."

"And I don't doubt it was, sonny," said the old man gently. "You run along now and help your missus dish up supper. You don't need to make company o' me; and I ain't one that b'lieves a man's place is on the front porch while his wife is rastlin' with the kitchen stove or the dish pan."

"Nor am I," said Nick, rising to obey. "You can ask Gay if I'm not a champion dish-washer."

It was a festive little supper, and Simeon Bartlett pronounced his hostess a "first class cook," & tribute that brought the happy color into Gay's cheeks, and a proud light to her husband's eyes. Later, when the world was drenched in moonlight, they escorted Mr. Bartlett home.

"I've had a real good time," he said in parting. "Don't know as I've enjoyed anything so much since my old woman went away. Stay as long as ever you're a mind to, but not a minute longer. I know how 'tis. Once I had that longin' to see new things myself; but it's long years now since home seemed the best place of all. Gorry! if it wa'n't for all the things I've got to remember, I'd a'most envy you, startin' out with the whole o' life before you. Goodnight, youngsters; and don't you go forgettin' the good advice I give you."

He chuckled, but Nick said soberly: "I shan't forget, sir."

"Nor shall I," Gay promised. She laid a gentle hand on the old man's. "If I don't make Nick happy it won't be because I forgot your warnings, and—I thank you."

"You're a good girl," he answered, patting her hand before releasing it. "You've given a lonely old man a happy evening."

"What a dear he is!" said Gay, as they rode away. She felt suddenly reluctant to leave this kind old friend, standing alone before a house that showed no welcoming lights.

Nick looked at her tenderly.

"You're something of a dear yourself, Gay. I could see that you took old Simeon's heart by storm. Poor old chap! His wife's been dead for years, but he always speaks as if she had just left him. I'm glad we thought to have him up for supper."

"It was you who thought of it," said Gay. "You think of everybody." She moved closer, to rest her cheek against his arm. "Nick. . . ."

"Well?" Nick questioned, as no words seemed forthcoming.

"I've been wondering. . . ."

"Wondering what?" He looked at her amusedly. "It seems to be difficult to say."

"It is. —Nick—I think you're wonderful!"

"Is that all?" Nick queried, with a slow smile.

"No. There's a problem been troubling me all evening. I can't face it alone, and—"

"Of course you can't—you've got me to face it with you! But, my dear girl, I thought it was to escape such things as problems that we came

away. Anyhow, we won't face it till we're back at camp. I'm going to take you the long way round. It's a glorious night to ride."

It was so glorious that they forgot the flight of time. It was late when they reached the cabin, but despite the hour they sat down together on the porch, and Nick reached for his wife's hand, twisting the slender wedding ring around her finger.

"You've guessed this was my mother's, haven't you? She told me to keep it till I found the one girl in the world. I used to think I'd never use it—or not for years and years. No settling down for me! I was to be a vagabond, you know—traverse the earth—conquer the world! Oh, Gay, what a kid I was, even a week ago!"

She stirred uneasily.

"And aren't you now?"

"My dear, how can I be a kid? I'm a married man!"

He was laughing; but Gay said soberly: "But—but I like having you a kid, Nick. You're only twenty-one. It—it's that. . . ."

"Oh!" said Nick. "I see. I'd forgotten the problem. Trot it out, young lady, and we'll go to it; though you've no moral right to produce the abominable thing on a quest for freedom."

(To Be Continued.)

## KEEPING BABY

### LOVELY AND WELL

Some babies thrive from the hour of their birth while others make so little progress as to be the cause of much anxiety. As a rule it is the digestion that is at fault with these backward ones and they start to go ahead directly Baby's Own Tablets are made the corrective of their stomach and bowel troubles.

Baby's Own Tablets are specially designed for the use of babies and little children. They are absolutely safe and the mother can feel perfectly secure in giving them to even the most delicate child. They are a mild but thorough laxative which banish constipation and indigestion; break up colds and simple fevers and allay the pains which accompany the cutting of teeth. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Active Prospecting Year

### Valuable Mineral Discoveries Reported In Northern Alberta

The adjournment of prospecting operations in Northern Alberta this season will bring to a close one of the most active prospecting years in the history of the province. Five major companies have carried on intensive exploration work with the use of airplanes and at considerable cost. Valuable mineral discoveries are reported to have been made and much valuable data secured.

## New Industry In Palestine

Palestine is becoming important as an orange-producing country, the fruit grown there being said to have a specially fine flavor and appearance. Jews in Palestine have invested over twenty million dollars in orange groves and new ones are being set out all the time. And so the future of Palestine brightens.

Don't be without Douglas' Egyptian Liniment. Keep it always handy. Relieves toothache, neuralgia, sore throat, quinsy, and croup. Invaluable for burns, sores, Barber's Itch, and Ringworm.

## Will Visit Winnipeg

The United States Junior Chamber of Commerce National Convention to be held in Des Moines, Iowa, in June, 1931, is to organize a post convention tour to Winnipeg, led by the national president, Dunward Howes of Los Angeles.

## WHEN PAIN COMES...

### Two hours after eating

WHAT many call "indigestion" is very often nothing but excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes acids instantly. The best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard anti-acid with physicians in the 50 years since its invention.

One spoonful of this harmless, tasteless alkali will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this more pleasant way. A small bottle is sufficient to show its merit.

Be sure to get genuine Phillips' Milk of Magnesia prescribed by physicians for more than 50 years in correcting excess acid. 50c a bottle; any drugstore. Complete directions for its many uses are enclosed with every bottle.

The Genuine Milk of Magnesia is always a liquid—never a tablet. Look for the Phillips' name on the bottle.

**PHILLIPS' MILK OF MAGNESIA**

## TOWN & COUNTY Personalographs

Wm. Smith of the Imperial Builders  
Supplies, was a Calgary visitor last  
Saturday.

Jas. Baird was out from the City  
for a couple of days the first of the  
week.

Henry Kary, John Forsch, Ed. Ohl-  
hauser and Jake Ohlhauser motored  
over to Hanna on Friday last in search  
of geese. They were unsuccessful in

their quest for game, although they  
saw some geese in the vicinity of  
Hanna.

Jim Ramsay has been busy the past  
week putting in another exit stair-  
way to the Farmers' Exchange hall.  
This was required to conform with the  
Theatre Act of Alberta.

Walter Hay has been quite sick with  
pneumonia the past week, but we learn  
that he is improving and that the  
danger zone is passed.

Miss Lottie McEwan left last Wed-  
nesday for Calgary, where she has  
secured a position.

Mayor S. J. Garrett suffered an at-  
tack of appendicitis last Thursday and  
was rushed to Calgary, where he un-  
derwent an operation. We understand  
that Sam is doing as well as can be  
expected and that it will not be long  
before he will be back with us again.

D. G. Murray and Guy Shell motored  
to Calgary on Thursday last.

E. J. Rouleau, J.M. and Ed. Ohlhauser  
were goose hunters south east of  
Carbon for a couple of days last week  
and were successful in bagging four  
large birds.

Miss Vera Poxon returned home on  
Sunday after spending the past couple  
of months in Calgary.

W. Millroy of Calgary spent Satur-  
day in Carbon and was successful in  
getting a few Hungarian partridge in  
the district.

The weather still remains warm with  
a little frost each night. This is the  
good old Alberta Indian Summer.

Mr. and Mrs. L. Poxon motored to  
Calgary on Sunday and returned on  
Tuesday.

Have you ordered your Christmas  
cards yet? See the wonderful values  
in Private Greeting Cards at The  
Chronicle Office. Our prices are the  
lowest in town because we do our own  
printing. Cards range from \$1.65 a do-  
zen. Now is the time to order for Old  
Country mailing.

### ANGELICAN CHURCH SERVICE

Sunday, November 2nd.

Evensong and Sermon ..... 7:30 p.m.

Service will be preceded by a con-  
gregational choir practise.

REV. L. D. BATCHELOR

### THEATRE

FRIDAY AND SATURDAY

OCT. 31 & NOV. 1

HOOT GIBSON

— IN —

## WINGED HORSE- MAN

A Plunging, Crashing, roaring dra-  
ma of the west! It's wild—it's fun-  
ny—it's thrilling! He took her for  
an airplane ride and found himself  
in a parachute. You'll laugh till  
you hit the clouds—throw your  
heart into a tailspin—thrill you in-  
to looping the loop—and makes a  
safe landing right into your heart.

## Brewing is an Important Industry in Alberta

ALBERTA'S

BREWERY

PRODUCTS

ARE

WINNING

THEIR WAY

IN THE

EXPORT

TRADE

BY SHEER

EXCELLENCE

The Brewing Industry is an important factor in the industrial life of this Province.

It is hardly necessary to emphasize the millions of dollars which have been invested  
throughout Alberta in this industry.

Hundreds of Albertans enjoy steady employment throughout the year in the brewing,  
storing, transporting, of the products of the five great modern breweries of Alberta.

Alberta Brewery Products are served  
by the bottle or glass at hotels. Sold  
by the barrel or case from our ware-  
houses.

Where beer by the glass is available,  
most men are satisfied to forego the  
full bottle of more potent liquor.

SOLE AGENTS FOR THE ALBERTA BREWING INDUSTRY
